GAMEWELL WAS HERE.

WASHINGTON, Jan. 4.4-The British Embassador has communicated to the Secretary of State a dispatch recently received by him from the Marquis of Lansdowne commending the gallant conduct of certain Americans who distinguished themselves last summer during the attacks on the legation quarter in Peking. The text of the

dispatch follows:
"My Lord-With reference to my donald has brought to my notice the conduct of certain Americans who particularly distinguished themselves during the attacks on the legation quarand who gave valuable assistance, both to him personally and to the de-fense in general.

"Sir Claude mentions the names of the Rev. F. D. Gamewell of the American Methodist Mission and Herbert Squiers, secretary of the United States legation. He states that the Rev. P. D. Gamewell carried out the entire defenses of the British legation, and that these defenses have excited the admiration of the officers of various nation-

alities who have since inspected them "I request that you will bring the names of these two gentierier to the favorable notice of the United States Government and express the appreciation felt by her Majesty's Government of their eminent services. I am, etc., "LANSDOWNE."

CHAPELLE ON PHILIPPINES.

PEKING, Dec. 5 .- That the Philippine war is to be the subject of an exhaustive report by Archbishop Chapelle, papai delegate to the islands, to the Pope, is the belief of Mons. Paul Bressi, secretary, of the French Jesuits in Manila, who is

sonal letter from Archbishop Chapelle. In his talk with Minister Conger a few days ago he referred to the correspondence of the papal delegate, and after seeing the letter Minister Conger requested a copy, that he might forward it to Washington. GREAT SHIPS FOR BRITAIN.

LONDON, Jan. 5-The British Admiralty has decided to build two battle-ships which are intended to be the largest in the world. The distinction of having the largest wars high has hitherto been held by Italy, with the Lepanto and her sister ship, the Ital-iana. Great Britain's two projected large warships, to be respectively named the Queen and the Prince of Wales, will be 2,000 tons heavier than the Italian ships mentioned, each having the displacement of 18,000 tons, which is 3,500 heavier than America's biggest armoreclad vessel. SUFFRAGE BILL RECOMMITTED.

ORPHANS MET A DREADFUL FATE

Fire.

ROCHESTER, N. Y., Jan. 8.—The Rochester Orphan Asylum Burned shortly after midnight. Over twenty inmates were killed, and over fifty injured.

ROCHESTER, N. Y., Jan. 8.—Át noon the identified dead by the Orphan Asylum fire had reached thirty-six children, one nurse and a cook.

The scenes about the building while the fire was at its height were heart-1 rending in the extreme. Crazed women were running about trying to find out whether certain little ones had been taken from the building in safety, while others were looking for their friends. All who were rescued had nothing on but their nightclothes. Policemen, citizens and firemen united in the work of rescue. Four little children had been forgotten on the fourth floor until a woman screamed out that they had been left behind. Instantly a dozen volunteers started for the stairway. Two were allowed to go to the rescue, and in a moment, it seemed ages, they returned with the babies in their arms. A cheer went up from the crowd which was hushed as the children were seen to be unconscious. They were removed to the house of a neighbor across the street. About thirty children were carried into the house of Herman Behn, a shoe nerchant across the street on Hubell Park, and as fast as the ambulances

arrived the children were removed. Every few minutes a victim would be Miss Comelieux, one of the attendints, was rescued from a third story window by a fireman. When part way down the ladder, the fireman slipped and fell to the ground. Both were ter-ribly injured, though they will re-

There were 109 children in the asy-lum at the time, and a corps of about thirty nurses and attendants. Sixteen of the dead are at the city morgue, several are at the hospitals, and some were left at the home of Mr. Behn. The injured consist mostly of children who were more or less overcome by smoke. It is impossible to get the names of the injured at this time. The hospital building was entirely de-

stroyed, and the main building damaged, entailing a total loss of about The buildings were heated by steam,

and the fire was caused by an ex-plosion of the engine boiler. THE BACILLUS AND THE LION.

"I am no more afraid of a boiled bacillus than I am of a well-cooked lion," says Dr. Alexander Hill, master d Downing College, and vice chancelor of Cambridge.

Now, the authorities affirm that out of 900,000 babies born annually in England and Wales, probably not more than one in twenty lives out his natural life; and the writer thinks that estimate is too high.

All the rest die-bar the few accidentally killed-from preventable diseases such as measles, scarlet fever, smallpox, influenza, consumption, etc., a long and dreary list; all the maladies on it having a family likeness and all arising from and propagated by germs. It is likely that one-third of the cows have tubefculosis and, of course peo-

ple drink the disease in the milk. It really does look as though it would sary, we might cook the lions later on;

"To sum the matter up." says an have noticed that among the preventable diseases the greater number are due to mistakes in eating and drink-

Which brings to us the little story that John K. Orthwein tells. "About ELECTION AT MANILA. debate upon the resolution was marked three and a half years ago," he goes the first municipal election at Manila by exceeding frankness. Some of the on to relate, "I was in the South Brisbane Fire Brigade service. At that time I contracted dyspepsia-a sharp and positive form of it, with the pains

never realized before "It lasted four months, and might have stuck to me for as many years but for one thing. My appetite disappeared altogether, I got constant colds and my attempts to eat were miserable spectacles for my friends to witness and warranted free from anything injuries to belied up a sour, acrid fluid, and life was hardly worth the price of it.

and Bones.

As this Mixture is pleasant to the tasts, and warranted free from anything injuries. One to the most delicate constitution education and surface and surface in the proprietors solicit suffaces to give it a trial to test its value. and my attempts to eat were miserable ife was hardly worth the price of it.

the bad form I was in and, one after another, they told me to try Mother Seigel's Syrup They were nearly all FROM ALL PARTS OF THE WORLD. in the habit of using it for anything

and got the Syrup without delay The first bottle did splendid work, and when I had finished the third my digestive arrangements were sound as a gold sovereign, and have been ever since. I can eat whatever-comes my way and catch no more colds. And this I owe to Mother Seigel's Syrup No wonder it is popular all over Australia.

"I am no longer in the brigade, but live at Hubert street Woolloongabba. South Brisbane Queensland, where I shall be pleased to see anybody who wishes further details of my case."-John K. Orthwein, Oct. 7th, 1899

The accuracy of the above statement is vouched for in writing by Mr R. Cumming, Assistant Superintendent South Brisbane Fire Brigade.

We may kill the bacillus by boiling t, and we may cook a lion if we can catch him, but the only certain way to get rid of indigestion and the black flook of silments which arise from it is by the use of Mother Seigel's Syrup

Consuelo Owners Sued For \$3000.

MANY DEMURRERS FILED

C. K. Towt Asks \$12,000 of the Kona Sugar Company for Damages.

When the brigantine Consuelo reaches the port of Mahukona, her master will and Chief Deputy United States Marshal B R Hendry awaiting him ready to serve process against the vessel. The libel proceedings are the outcome of salvage money claimed by Robert R. Hind, living at Kobala, and owner of the

It seems that the Consuelo was lying in port at Mahukona on November 15, 1900, when a severe storm broke over the vessel, and she became endangered to such a degree that she was abandoned by her officers and crew, and all sought safety on shore. Then one Frazer, who seted as agent for the Consuelo, request-ed the captain of the Upolu to assist the brigantine and prevent her being driven ashore. The Upolu went at once to the scene and, making fast to the vessel, towed her out to sea and saved her from

reached will be that of Alkader Temple, at Portland, Ore. Seattle, Tacoma and Spokane will be visited in the order named, where the nobility of the great State of Washington will extend the glad hand and do other things. Helens, Mont., will next extend greeting through Algeria Temple, and El Zagel, Temple, of Fargo, will be waiting to fail over themselves to honor the Imperial Potentate and his excort. Mimeapolis and St. Paul are preparing to "blow" themselves when the caravams reach their oasis, and will take a couple of days to do it. Then comes the trip back to Chicago, where Medina Temple is going to try to outdo the others. Next the train starts for Grand Rapids, the end of the journey. completing the greatest pilgrimage ever undertaken by any order in the history of secret societies.

The "Imperial Special" will be the very best in every way possible to pro-Mystic Shrine Making Ready To Come.

HONORS FOR THE ISLANDS

A Temple To Be Instituted in This City by Imperial Potentate Reed.

In the Fraternal Record of Washington, D. C., appears the following concerning the proposed pilgrimage to Hawaii of the Mystic Shriners:

GRAND RAPIDS, Dec. 24.-On the 25th of February, 1901, a special train will pull out of the train shed in this city, the destination of which will not be reached until the Pacific Coast is sighted. It will cross the great West by one route and return by another, and all the way there will be at least two cars in the train bearing the label of "Grand Rapids & Indiana Railroad," thus giving prominence to the starting point—Grand Rapids.

This special train will be that char-tered for the Honolulu pugrimage of Imperial Potentate of the Mystic bariners. Lou B. Winsor, of Reed City, for the formation of a new temple of the Mystic Shrine in that newly acquired garden spot of Uncle Sam's do-main, Hawaii, the resident nobles of It was impossible to get any of the Honolulu have perfected their organ-wtinesses to give evidence that would ization and have requested the honor

The following committee has charge of the details of the trip: Nobies Geo. F. Sinchair, Charles E. Fink, Thomas W. Strahan, Joseph C. Herkner, Lucien E. Wood, John A. Wolcott and Charles B. Quigley. They have worked uiligently to obtain the best that could be presured in the way of accommodaprocured in the way of accommodations, both going and returning, with the result that they have arranged the itinerary for a five weeks' outing such as has never before been equaled in benefit and upon this he expected to witness called and to the questions the history of the Mystic Shrine or any tion for grinding, receiving a certain per- propounded to him he replied that it other order. They have gotten up, had the triangle of the mystic of the mystic shrine or any tion for grinding, receiving a certain per- propounded to him he replied that it containing, besides full information concerning the pligrimage, a large number of beautiful engravings of points of interest along the routes to be traversed, including scenes in the Hawaiian Islands and descriptions of the towns and people. An important part of the book is several pages de-voted to the city of Grand Rapids, him that she had taken two spoonsful where the great pilgrimage starts, with of buhach powder in the presence of her husband, father-in-law and the with a necessarily brief but compreef these handsome books have been sent broadcast over the whole country, and Grand Rapids, the home of Saladin Temple, will be given more prominence thereby than through any other means

The Pilgrimage, as finally arranged, covers a distance of 11,324 miles of travel—7,124 by rall and 4,200 by water. A special train of solid vestibule sleepers, with dining cars attached, has been chartered from Grand Rapids to A motion to amend bill of exceptions in the case of Rose A. Miner vs. F. The "Imperial Special," as the train will be The accommodations of the special are limited strictly to 160 persons, and the personnel of the party will be confined exclusively to Shriners and their ladies. Meals will be served a la carte. The cost for the round trip has been secured at \$150, which will cover all expenses, except meals en route from Calcago to the Coast and return, and botals wherever recorrects. hotels wherever necessary.

et attempted.

It is the intention of the Imperial Potentate, to inspect, officially, together with his imperial escort, all of the temples enroute. During the short so-journ at Chicago the caravan will be journ at Chicago the caravan will be under the protecting wing of Medinah Temple. The next stop will be at Des Moines, Iowa, where the infant Za-ga-Zig Temple has promised "to do something." Malia Temple, of St. Joseph, Mo., will next greet the imperial travelers. Abdallah Temple, of Leav enworth, Kans., will have a chance to pay homage to his imperial majesty and escort. At Kansas City Argrat and escort. At Kansas City Ararat Temple will be inspected. Here the Imperial Council will meet next June, and the Ararat Nobles will have an opportunity to practice on the imperial pilgrims for a few hours. There will be no other stops urtil the special reaches Dallas, Tex. Here the caravans will rest and be entertained on Hella Temple's casis. There will be a long jump from Dallas to Phoenix, Aris., where the sojourners will be the guests of El Zaribah Temple, another ossis where true Western hospitality oasis where true Western hospitality abounds. Next the caravan will be ited up at Los Angeles, Cal., where there will be a rest of a day or two, as Al Malaikah Temple has spoken for two days to show the imperialists its numerous points of interest. From Los Angeles the journey will be direct to Can Prangical when the next with he San Francisco, where the party will be received by Islam Temple with its Golden Gate wide open.
At San Francisco the ocean pilgrim-

At San Francisco the ocean pilgrimage begins. The elegant steamship Sonoma, of the Ocean's Steamship Company's line, has been secured for the trip to Honolulu. The Shriners will own the ship. There will be no steerage passengers. They have access to all parts of the floating palace, save those occupied by the officers and crew while on duty, at any and all times of the day and night. A program of entertainment will be arranged for the evenings furning the ocean ed for the evenings during the ocean voyage, in which the ladies will take an active part. While on the Islands entertainments of all kinds will be the order. The new temple will be insti-tuted in the crater of an extinct vol-camo, in which it is said the sands are

SCROFULA

On the return trip the imperial party will be royally entertained by Islam Temple, of San Francisco, and then the homeward journey will begin by rail by the Northern route. The first casis reached will be that of Alkader Temples of Santial Francisco is "bad blood." A little break of the skin becomes a sore; The Only you come to have a good many perhaps. PRAISES HAWAII.

Rev. John Cook Says This Is the Home for the Negroes.

SAN FRANCISCO, Dec. 22.-The Rev. John Henry Cook, a colored preacher of Mississippi, who recently went to Hawaii to inspect the sugar plantations and the opportunities there offered to negro laborers, returned by the Zealandia today. He says he is much pleased with the outlook, and the companion who went with him remained at Kohala and began work on a plantation. Cook says he will advise the people of his race to emigrate to Hawaii and he will accompany them. He says the advantages Hawaii offers over any of the Southern States are higher wages, shorter hours of labor, coughs, colds, croup and whooping addition he says the quarters provided for these diseases. These diseases The average than the negroes are able to provide for themselves in Mississippi. Then there are free medical attendance and other advantages, which make the real wages much larger than the apparent ones. There is a good system of free schools and an absence of race antagonism. He is enthusiastic regarding the outlook for the negro in Ha-wall.

If "the young clerk, the mechanic, the American farmer are told without ceasing that the market is crowded and openings few," then the Bulletin is doing most of the telling. No one else has the tob. That journal demands to know what is doing to increase the number of "educated, thoughtful farmers" and then proceeds to scare them away by talking about the need of having "capital of thousands" to succeed (at farming) in the Hawaiian Islands-a proposition which will make the members of the Wahlawa colony and some hundreds of industrious Portuguese smile. In the teeth of that the Bulletin goes on to inquire if the mercantile and commercial organizations are doing anything (more shame to them) to induce citizens of the mainland to come to Hawaii "to try their fortunes with no other capital than honesty and readiness to work?" That is to say, while nobody can do anything here without "thousands" this reckiess and purblind government is neglecting to invite people here who have no capital but their good intentions. "The young cierk, the mechanic, the American" are not encouraged to come even where the individual has 2000. The Builetin stops in the foam of its indignation over the narrow-minded policy of Government to tell this wouldbe investor that if he wants to buy Hawailan accurities with his \$600 he might as well save himself the trouble of coming here and make the deal in San

Francisco. The Bulletin is keen for the white laborer and farmer on its editorial page but in its column of advice it discour-Government for its alleged policy of keeping them away. Observe this helping hand paragraph:

One alone except in times of public excitewould need to be a thorough farmer, ment or when it is used as a source with capacity of adapting his experience of blackmail. Here it is the goal of an

have capital of thousands to succeed in licemen are hired; that is to say, fifty the Hawalian Islands. The supply of the say of the bookkeepers far exceeds the demand, on a shift. At no time, it seems to us, and the lecal schools are constantly add-should less than fifty policemen be ing thereto, Z. No, except by force of available. True, one white man may Hitt and Berry and others of influuncommon talent, pluck and staying be worth two of any other kind for ence in Congress may be depended upon 3. A capital of \$500, unless it police duty—speaking generally and not to give their aid. Indeed, we anticiwere strictly surplus in a young man's of the exceptions that prove the rule—pate that a naval appropriation for resources, would be of no use in Hawaii, but here in Honolulu it costs as much Pearl Harbor would be regarded, in Then it small the invested in Hawaiian. for one white man to live as two of both House and Senate, as a matter of any other color and he must be paid course. accordingly. We do not doubt that fifty white policemen would cost even more than 100 native Hawaiian policemen, so the plea of economy behind the reorganization of the force really emounts to nothing.

Of course, from the point of view those who have been unable to control to the fact that the wholesale dealers High Sheriff Brown and use the police and the Grand Jury for political ends, reorganization at any cost is desirable, and the sconer the better. But the masses of the people and all of the taxpayers who are not afflicted by the thirst of office, are content to let the police force stay as it is. We have an orderly and peaceful city and no more policemen than we need to keep it so; and as for the expense, it comes out of revenues provided by one of the lowest tax rates in the Union and those who pay the bills make no complaint.

Some weeks ago this journal announced that Pearl Harbor would be improved. The next day another morning paper denied the story and quoted local Federal official to the effect that Pearl Harbor, owing to the high price of land along its shores, had no attractions for the Federal Government. As this issue of the Advertiser contains a Government advertisement asking for bids for the opening of Pearl Harbor, the questions raised may now be regarded as settled.

A contemporary says that property-States in summer, yet there is a pecu- in Hawali is assessed at full valuation Go on, ye scientific sages, have been found to enjoy long. PEARL HARBOR IMPROVEMENT.

The United States War Department will open Pearl Harbor under the law which gives it control of the outlay of River and Harbor appropriations. the position of the port, as the strategic key to the North Pacific, would seem to make it imperative that there should docking and repair of war vessels and for their assembly into fleets.

Pearl Harbor is well located for such a purpose. A dockyard could be built ships might be kept so far off that they could not drop shells half way up the harbor without elevating their guns to a degree that would through the recoil after firing, damage the structure of the vessel. The failure of Admiral Sampson's bombardments during the Spanish war shows how easy it is for well-manned forts to protect property located behind them even within two or nolulu Iron Works. In time of peace it would be most desirable to have a means of the possible destruction of the dock, the Iron Works and the adjacent city. At least that, as we are told, is the argument of the naval men; so if we are to have a naval station at all, Pearl Harbor must afford the site.

In any effort which the Department may make to reach that end, Senators Morgan and Cullom, Representatives

THE PARENT TRUST.

It is said that local firms which sell plumbing goods and are doing business in conformity with the law are unable to get supplies in San Francisco o wing there belong to the trust and will not sell to retailers outside of it.

If this is true the United States Listrict Attorney at San Francisco has the same duty to perform which he carried out so well in the case of the coal combine and which was followed up to such advantage here by United States District Attorney Baird in the local fight against the plumbing trust, We are convinced that any Honolula business house which is being buildozed by the San Francisco combine could well afford to begin a Federal action there to recover three-fold damages; and that it would not appeal to the District Attorney in vain for the open-

ing up of criminal proceedings. The Advertiser desires to do all it can to protect local plumbers from the San Francisco buildozers and if given evidence of the existence and activity of a plumbing trust there it stands ready to put the Mark whate they will do Honolulu dealers they greatest amount of good.

Nine Inches of Rain in The Reservoir.

THE TOTAL FOR DECEMBER

Interesting Weather Report for Last Month Made by Prof. Lyons.

Weather Man Lyons, the Territorial Meteorologist, says more rain fell at the reservoir up Nuuanu valley during December than anywhere else on Oahu. While but 82-100 of an inch of moisture three miles. For the reasons cited the fell at Waipahu, Luakaha, in Nuuanu, Navy Department has not seen fit to had nearly ten inches. Of course it urge the building of a dock on Honolu- must be remembered that the reservoir Wyllie Street, Honolulu, 15.77; Kilauea, lu harbor close to the complete and is 850 feet above the sea and Walpahu Kaual, 12.12. economical repair facilities of the Ho- is but 200. The following is the full report of Professor Lyans:

Temperature mean for the month, greatest daily range, 19 degrees; least daily range, 5 degrees; highest tem-perature, 82; lowest, 55. Barometer average, 29.965; normal, 29.970 (corrected for gravity by —.08);

highest, 30.13; lowest, 29.82; greatest twenty-four hour change, .08. For a winter month the pressure was very

Relative humidity, 74.5; normal, 74.5; mean dew point, 63.5; normal, 63; absolute moisture, 6.45 grains to the cubic foot; normal, 6.32.

Rainfall, 1.67 inches; normal, 4.64; rain-record days, 12; normal, 15. Rainfall at Luakaha, 9.19. The artesian well level rose from 33.62 to 34.00 feet above mean sea level (i. e., about 5 inches). It is still 0.85 foot lower than on January 1, 1900.

Trade wind days, 23 (6 of N.-N.E.); normal number of trade wind days, 16; everage force of wind, Beaufort scale, 1.7. Cloudiness, tenths of sky, 4.2; normal, 4.5.
The rainfall has been far below the

normal for the month; as low as 50 per cent for the whole group, by a rough estimate. The only exceptions are Waimea and North Hamakua on Hawaii, and Makawao on Maui.

Average temperatures: Pepeekeo, Hilo District, elevation 100 feet, average maximum, 81.1; average minimum, 66.8; Waimea, Hawaii, 2,730 elevation, 73.5 and 61.5; Kohala, 585 elevation, 78.2 and 68.0; Kulaokahua, W. R. Castle, 60 feet elevation, highest 81, lowest 56 degrees.

There was a slight earthquake at Waimea, Hawaii, on the 5th. Snow fell on Maunakea on the 30th and 31st, following the cold wave of a day earlier. The only snowfall of the season previous to this was in October. Lightning on Hawaii on the 31st; heavy swell on windward coast, on the 5th, 4th and 29th.

TROUBLES OF THE REPUBLICAN

The Paper May be Unloaded on a Local Syndicate.

Something like a cyclone has been passing through the office of the Republican, a morning paper of this city, and various wreckage is left in its

for seven months, during which time under leadership of the Kosmos line. a large amount of money has been sunk in trying to make it pay. ever prospects it may have had were ruined at the start by salacious articles about Iwilei, and lately, a biast of profanity and obscenity in its cotumns gave its stock another fall, drew the directors together in an indignation meeting, and led Judge Humphreys, the majority owner, to offer the edi-torship to Dan Logan. When seen

yesterday Mr. Logan said:
"I do not know how the facts about the offer to me leaked out, but now that you have them I may say that I am considering a proposal to take the editorship, but am not sure but the projected sale of the Republican may get in the way of my acceptance."

It has been learned elsewhere that a syndicate has been formed to buy the paper, and that Judge Humphreys hopes to conclude a deal on Saturday One of his brothers-in-law says that he is disgusted with his venture in journalism and will, if he unloads the property, confine himself in future to his law practice.

An Advertiser reporter tried to find out the names of the men who had offered to buy the Republican, but was unable to do so. They may be Democrats, or they may be the minority stockholders. Whoever they are they stockholders. Wh are keeping dark.

Since its inception Judge phreys' paper has had four business managers and several city editors. Every effort was made to get a circulating watch, tion, but some accident of policy inter-vened. Advertising was taken at any vened. Advertising was taken at any price, and many trade announcements were and perhaps still are, carried gratis. At the end of six months the paper said it had reached a paying basis, but Mr. Ziegenfuss, just before his departure, said it was losing from \$800 to \$1,000 per month. Other former employees said the same thing. Lately the office has cut salaries and discharged all the men it could possibly do

SONOMA AT THE REFINERY. SAN FRANCISCO, Jan. 6.-The

Oceanic Company's steamer Sonoma annually: has been shifted from the stream to nually; the sugar refinery, and will soon be in readiness to go to Jackson street wharf annually, and begin loading. The Sonoma, like the Sierra, is finely furnished, and is nually. expected to be a notable attraction on the waterfront when ready for her maiden trip. She is scheduled to sail on January 23d.

At noon tomorrow the steamer Albion will sail for Honolulu with a cargo of perishable freight. The Albion is unique in being the only vessel of its class in the Island trade, being almost exclusively a refrigerator ship.

No changes whatever have been made in the plans and they will be carried out as originally intended. The firm of architects having the construction in charge is not affected by the recent death of one of the members of that

TO COMMAND ILLINOIS. WASHINGTON, Jan. 7.—Captain Geo.

A. Converse has been selected to com-mand the new battleship Illinois, which is now undergoing its finishing touches at Newport News, Captain Converse, whose assignment to the Illinois was made public today by Secretary Long, was recently promoted to his present rank. He was born in Vermont and appointed to the Naval Academy in 1861. He has served on the European squadron in torpedo service as instructor, and was commander of the cruiser Montgomery at the outbreak of the war with Spain. During that trouble he retained his command of the Montgomery with distinction. The Illinois was launched on October 4, 1898. Her trials for speed will be made some time in February, when it is expected President McKinley will see the new ship do her first work.
The Illinois is 368 feet long and her displacement is 12,325 tons. She will carry
four 12-inch guns in her main battery.

ARRIVE IN SAN FRANCISCO.

The following arrivals from Honolulu at San Francisco up to January 8th, include the bark C. D. Bryant, twenty-two days, with 27,500 bags of sugar; the barkentine Planter, eighteen and one-half days, with 15,382 bags of su-gar, and the schooner Aloha, twentytwo days, with sugar.

SHIP CAPUTRED BY PORTO RICANS

For Aid From Police.

IMMIGRANTS ARE POOR LOOKING LOT

Four Hundred Go to Other Islands ---Pitiful Scenes Among Them.

(From Thursday's Daily.)

ISERY and filth are not strangers to the four hundred and more Porto Ricans who arrived here yesterday on the City of Peking and who were hustled in Island steamers to other Islands, where they are to work on the plantations.

The truth is but told when it is said waiian Islands

material to cheer or comfort them in enough by honest toil to provide them with sufficient to keep body and soul together.

As they were transferred from the City of Peking yesterday to the Island steamers which were to take them to their new homes, those who saw them were overcome with pity for their wretched condition. Poor little wasted infants, looking more like living skeletons than growing human beings, with that vessel. To be sure there were little claw-like hands clutching at the something like four sacks of rice, so it little claw-like hands clutching at the tiat breasts of sickly mothers whose **±ad.** pity-beseeching eyes had long ceased to know the poor comfort of useless tears, caused many hearts to ache and many heads to turn eway. It was not a sight to look upon long.

The country which these unhappy ones have left has sent forth fearful examples of the conditions existing there. Here, in Hawaii, they are to find homes and food and wherewithal to clothe themselves, and perhaps happiness. It is a change from positive suffering to contentment for them; for the country it is an experiment.

One who went among them yesterday morning told an Advertiser reporter that it would be some time before they could be expected to do any work. They have first to be nourished; they have to regain some of the strength which has been lost by semi-starvation.

It seems that they have been picked from the very poorest and most hopeless class in Porto Rico; it would be hard to imagine people in more destitute circumstances.

About half the Porto Ricans are wohave suffered more than the men. The if they had to fight. men are better able to stand it. The dirt which was so evident on the persons of the immigrants was not by any means only the string of travel; it means only the stains of travel; it sent for. seemed rather to be the accumulation. The police came to the conclusion of days and weeks and even months that it would be best to leave the man of living in the most squalid circum-who had captured the vessel aboard or stances. But how could they well be otherwise? Herded like cattle, each steamship people that they were bearing a tag with his name and the necessity of there having been so much mame of the plantation to which they trouble over nothing, and it was intimothing to dispensaries has averwere consigned, bunched together in mated that the captain of the vessel and so it is that a manual way Department, and it was intimothing to dispensaries has averwere consigned, bunched together in mated that the captain of the vessel and so it is that a manual way Department, and upon whom the bar, or a majority aged 16 daily. name of the plantation to which they trouble over nothing, and it was inti-were consigned, bunched together in mated that the captain of the vessel such a way that it was practically im- had been smitten with "cold feet" when

The surgeon aboard the Peking used in such a way that he would be unable to do any harm with the knife; down from the Coast in his attempt to that he should have used force to refight malaria and dysentery among the gain his ship after the Porto Rican

As soon as the Peking was at the Pacific Mail wharf the steamer Helene of Wilder's company went alongside of the steamship and three hundred of the immigrants were immediately transferred to the smaller vessel. They were well managed and Captain Clarke maw to it that they were well provided with food. The Helene then proceeded to Hawaii and Maui, where they are to be distributed among the different plantations. No trouble was experienced with those put aboard the Helene.

Later in the day the steamer Ke-Au-Hou of the Inter-Island Company was ready to take most of the remaining immigrants to Hamakua. A little over one bundred were put aboard the Ke-Au-Hou and early in the afternoon the steamer was ready to start upon her journey. Captain Olsen commanded the boat.

The Ke-Au-Hou is not a large boat and when the laborers, the sickest looking lot of laborers who ever hired/out. were aboard there was hardly room for the crew to move around in.

It is fortunate for the two steamship companies that the Federal inspectors of hulls and boilers have not yet arrived to put the United States laws into effect in regard to the carrying of more passengers than can be properly or safely accommodated.

If any acrident happened either the Helene or the Ke-Au-Hou on their respective trips to the other Islands a great many lives would be lost, for HR. there are not the necessary number of the boats or rafts and so forth on the ves- stran ar wels to save half the number of people which they carried.

The Ke-Au-Hou had no sooner gotten out into the stream, all ready to depart, before those on shore noticed m great commotion on board and pretty soon some one came hurrying from the vessel in a bost and, siter landing, made a rush for the police station.

"What's the matter?" cried a dozen or more excited persons when they got wind of the fact that there was some-

thing wrong on the vessel and that a Keauhou Returns man from the steamer had hastened to seek police assistance. No one seemed to know what the trouble was, however, although there were all kinds of

rumors of bloodshed and mutiny. Soon Deputy Sheriff Chillingworth arrived upon the Inter-Island wharf with a couple of trusted men, well armed, and they were quickly taken off to the steamer as she lay in the

High Sheriff Brown came down about an hour afterwards to see what had been done and President Ena of the Inter-Island Steam Navigation Company also made his appearance on the wharf together with representatives of the various companies which are receiving the laborers for their plants-

Ke-Au-Hou the story of what had happened aboard the vessel soon got around and the rumors of bloodshed ments by the Government of Pearl Harand murder were all knocked in the bor published exclusively in the Adverhead.

A Porto Rican had captured the Ke-Au-Hou. He had taken the vessel away from

the captain and all hands and had the laugh best." Under the caption, "To whole ship's crew scared out of their Open the Bar," this paper published a

This was one of the Porto Ricans who was not quite as fat as he would contemplated by the United States have liked to have been. He was hun-Government of Pearl Harbor, secure in that no more wretched-looking lot of there were nothing to eat and its knowledge that the news contained human beings ever came to these Ha- his fellows to consume. It is alleged that the steamship company had not properly provided for * the immigrants, and that they had nothing to eat when they went aboard in the Ke Au Hou, and that nothing was | *************** ready for them when they got aboard is said, and a barrel of salmon and even a barrel of pork abourd the vessel, besides some hard bread for their ber 25: consumption. It is said that the cause of the uprising, of one man with a knife, was that a lot of hard bread was dumped on the forward hatch for the immigrants to feed from. They kicked for the reason that they expected more than hard bread to eat, and did not like the idea of eating from the deck. The man who captured the vessel and The man who captured the vessel and to Washington at once and if it is found compelled the captain to send for the that the bar can be opened for the sum police, said he represented the Porto Ricans aboard, and was carrying out the wishes of all when he held the vessel in port. He was not going to allow the vessel to go to sea until some understanding was reached with the authorities concerning food.

Captain Olsen did not take the knife away from the Porto Rican, nor did he attempt to do so. He dropped the

anchor right in the middle of the stream and sent for the police.

The police upon their arrival attempted to take the man who had wielded the knife ashore and lock him up, but the other Porto Ricans, through an interpreter, gave the authorities to understand that if the knife-wielder was taken off the vessel they would About half the Porto Ricans are wonot allow the boat to go to sea, that men and children. CHARTER TALK.

Republicans on the Corporation Question.

MONEY IN SIGHT FOR EXPENSES

Many Arguments Made in Favor of Municipal Law---Will Go Ahead.

(From Wednesday's Daily.)

UCH good humor prevailed at the meeting of the Republican Charter Committee last evening at their rooms in the Elite building. Very little actual business was transacted as many of the committees were unable to make a report and were compelled to ask for more time.

A. V. Gear was called to the chair and as soon as the usual business relative to the last meeting was finished the report of the financial committee was heard. L. L. McCandless, chairman, reported that they had been able thus far to secure pledges for about \$600 and he had no doubt but that the balance of the amount required could be raised. Continuing, he said: "We have seen many people and find that a number object seriously to the idea of a charter, at least for some time to come. Many claim that they do not want a charter at all and do not wish to donate any money to further such an object. I saw one man who has been liberal in the past and one from whom I fully expected material assistance, but was much surprised to find that he said, I would willingly give \$100 to have the municipal law put off for at least two years, but I do not care to give any money to aid it."

"Was he suggesting a fund?" interjected T. McCants Stewart.

"Another person that I approached," continued McCandless, "told me that we were spending time and money in a hopeless cause and that all our efforts would be of no avail. I was told that the charter would not be considered by the Legislature but before I left him I succeeded in obtaining \$50. I believe that it would be advisable to get more information from the people before we draft the charter. Many prominent men say that they don't think that it would be passed at all. I am free to confess that I have not met with the success that I had expected and feel somewhat disheartened. There are many things to be considered before we so much further and we should all give the matter very careful thought.

w O Smith rose to argue the ques-tion and cited his opinion that it mat-tered little what individuals thought to be considered.

"This is a matter which affects the entire community," said Mr. Smith, "and requires lots of thought and much hard work. The work is of great value to the entire community and we should not shirk it. Other places and men of great experience have given their time and attention as well as their money to this question and I say that when we do have a city government let us have a good one. Let us have a good one or have nothing at sal. If we do not be careful we will have a government that will be a burden to the community. Summing it all up I think that the report of the finance committee is encouraging and that they deserve great credit. It behooves us as earnest men to draft the best charter we can, and I believe that we are justified in going ahead."

P. L. Weaver gave as his opinion that the question of the charter should be allowed to pass over to the next session of the Legislature. "We would then be better prepared," he said, "and better able to offer suggestions of value as the result of more careful thought and preparation, and unless we do give this careful thought we will have nothing ready to propose, and we want something positive; then even if we lose we will have the satisfaction of knowing that we have given the matter thorough attention."

At this point the report of the finance committee was dropped for a time and the committee on statistics was called upon. Through its chairman, E. A. Mott-Smith, it asked for more time, stating that it had been unable to obtain all the information required owing to the arduous duties imposed up-

P. L. Weaver, chairman of the literary committee, submitted a long list of books for the consideration of the body and stated that through the courtesy of the Young Men's Research Club the members could secure valuable reference matter at McClellan and Pond's office at any time. Another list of books was mentioned selected with a view of the matter in hand and were of such an assortment that nearly everything pertaining to the question of charters in big cities could be found. All these are in the Honolulu Public Library.

T. McCants Stewart had been fidget-

that the charter will not even be considered at the next legislature, parhaps they know whereof they speak. It is possible that we are up against it, as the siang phrase goes, and that there is a ring here, as there is in every city in the United States. That they speak with such assurance is not surprising, for in New York City, Thomas C. Platt can tell you two weeks ahead just who will be speaker of the legislature, and from that position down to that of spittoon cleaner."

"Oh, sit down!" came a deep voice from the corner, and turning to the speaker Stewart said, "I have mished. I do not tell all that is in my head to the newspapers."

the newspapers."

"For which the papers are thankful,"

came the voice again.

W. O. Smith again took the floor on the necessity of good government, and ended by advising that the committee go ahead and draft some charter. This brought Stewart to his feet again, and in a loud voice he said, "The point I made, or wanted to make, was that we should have an expression of opinion from every one present as to what is best to be done. The voice of any one individual should not answer

for all."
George A. Davis spoke at some George A. Davis spoke at some length on the subject of corporation, and said in part: "After declaring a corporation there are the boundaries and the wards to be looked after, and the services of a surveyor will be re-

quired." "Do we need money for a surveyor?"
asked Stewart.

"Oh, no; we can probably find some one to do it for nothing," replied Da-

vis in a sarcastic tone. Davis then moved that the report be Davis then moved that the report be accepted, but J. A. Gilman thought that it was not yet time to drop the discussion, and said so. "So far as the finances are concerned," went on Mr. Gilman, "the \$600 pledged already was not given by ardent supporters, and many of the warm partisans of the Republican party have not been seen at all. I believe that the balance of the fund can be raised without trouble, and if necessary I think that considerate of this city in proper condition and if necessary I think that considerable more could be raised."

B. Mott-Smith proposed an amend-ment to the original motion to the effect that the chairman of the finance committee be authorized to proceed feet mauka of Wilder avenue and this with the collection of funds, and report street is crossed by an open culvert at the next meeting. Upon being put or ditch. The sides of this culvert or to the question the motion with the ditch at the point where it crosses. amendment was carried.

A motion of Stewart's that had car-

ried over from the last meeting was taken up, and after much discussion and the suggestion that the difficurty the level of the street.

experienced in getting a full attendance at the meetings was due to the while the same remained a public work, presence of Francis Murphy in the the department did negligently fail and city, the following motion was carried: neglect to erect guard rails or other From and after this session this committee shall meet on Friday evening of each week at 7:30 o'clock, and stand adjourned at 10 o'clock, That all resolutions and parts of resolutions inconsistent with this resolution be and the osame are hereby rescinded."

Weaver offered as a suggestion that

section 1, article 1, which refers to m., the complainant, while on foot and boundaries, rights and liabilities, be referred to the charter committee. The article reads as follows: "The municipal works are complained into the complaint with the complained with the complaint with pal corporation known as the city and body politic and corporate in name and in fact, and by that name shall have perpetual succession; may sue and defend in all courts and places, and in all matters and proceedings may have and use a common seal, and alter the same at pleasure; may purchase, re-ceive, hold and enjoy real and personal property; may receive donations, bequests, gifts and donations of all kinds of property in fee simple, or in trust, for charitable and other purposes, and

do all acts necessary to carry out the purposes of such gifts, bequests and

purposes of such gifts, bequests and donations, with power to manage, sell, lease or otherwise dispose of the same in accordance with the terms of the bequest left or trust."

Section 2.—The boundaries of the city and county of Honoiulu are hereby declared to be those of the District of Kona in the blaind of Cahu."

Section 2.—Sults, actions, and proceedings may be brought in the name of the city and county for the recovery of any property induct for the recovery of the enforcement of any rights or control the enforcement of any rights or control the questions which every man and before or after the adoption of the charter.'

The new cemetery tract at Waisine

The proposed line of the Rapid Transit Company to run along the new Diamond Head road is to come within 250 feet of the cemetery, whence switches ferent gates.

A thirty-foot garden strip is to be Prof. Roxa Tyler, of Chicago, vice laid out, which, it is said, will com-

Hair 55 Inches Long Grown by Cuticura.

NEWBERT & Sons, 27 and 28, Charterhouse Square, London, E. C., a strand of soft, glossy hair cut from her own head and measuring fifty-five inches in length, of which the annexed drawing is a photographic fac-simile. She attributes her magnificent head of hair to frequent sham-

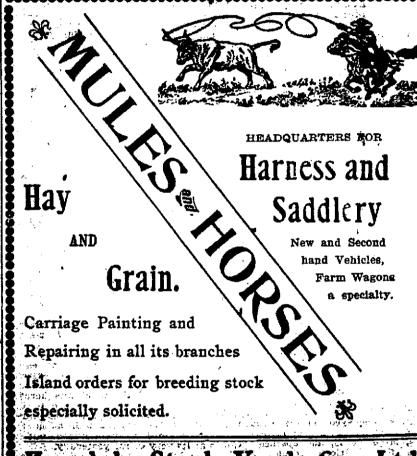

poor with CUTICURA SOAP, followed by light dressings of Cornouna gently rubbed into the scalp. Previous to the use of Curr-CURA, her hair was dry, thin, and lifeless, and came out in handfuls to such an extent that she feared she would lose soon it. Tide is but one of many remarkable

cases of the preservation and restoration of the hair in seemingly hopeless cases by warm shampoos with Curicura Soar. followed by light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, clears the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow on a clean, sweet, wholesome, healthy scalp, when all else fails.

MILLIONS OF WOMEN use Curroura Soar exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery.

Complete External and Internal Treatment for Every Humour,

Consisting of Curreura Soar, to cleanse the skin of crusts and scales and soften the thickened cuticle, Curreura Cintment, to instantly allay itching, inflammation, and irritation, and goothe and heal, and Curreura Erselvent, to cool and cleanse the blood. A uon, and goothe and beal, and coricura EESOLVENT, to cool and cleaned the blood. A Single Ser is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humours, with loss of hair, when all else falls. Sold throughout the world. Aust. Depot: E. Towns & Co., Sydney, N.S. W. So. African Depot: Lennon Ltd., Cape Town. "All about the Skin; Scalp, and Hair," free. POTTER DRUG AND CHEM. advantage.

"I was afflicted for years with St. Vitus' dance. The first symptoms of the disease began in 1889, when the nerves began twitching in my left hand. I consulted physicians of this city, but none of them ever did me a particle of good. After I had suffered for two and one half years, the disease continuing to grow worse, I heard of Dr. Williams' Pink Pills for Pale People.

"It was in 1891 that I was induced to try them, and I was surprised at my rapid improvement. I took only two boxes, and was entirely cured. It was hard to realize that I, who for over two vears was scarcely able to walk, and who often found it almost impossible to talk, should be restored to perfect health and in full possession of all of my powers by two boxes of this wonderful semedy.

"I am happy to state that my health is still perfect and I have never had the slightest symptoms of a return of the disease, although it is eight years since I was cured."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the ele-ments necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgis rheu-matism, pervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in sack-ages. At all druggists, or direct from the Dr. Wil-ilams Medicine Company, Schenactady, M. Y., 50 cents per box, 6 boxes \$2.50.
